

## **CASE No. 9132 – Constellation Energy – CPCN Riverside Generating Station**

Request for CPCN to Reactivate an 85 MW Unit at Broening Highway Station in Dundalk utilizing natural gas. There was no public opposition expressed. A settlement was reached between CPSG, PPRP and OPC incorporating PPRP's recommendations for CPCN re compliance with Air Quality, Water Discharge and Noise standards. Settlement also incorporated OPC's recommendation re adequacy of on-site parking, and PSC Staff's recommendations re transmission system improvements and interconnection requirements. On May 2, 2008-PSC Hearing Examiner issued Proposed Order approving issuance of CPCN subject to conditions of settlement. OPC filed Request to Clarify (joined by other parties) requesting that the PSC Hearing Officer clarify that conditions recommended by OPC and Staff, as well as PPRP, were incorporated in approval of CPCN.

On May 8, 2008-PSC Hearing Examiner issued revised Proposed Order clarifying that conditions recommended by OPC and PSC Staff were incorporated in approval of CPCN, and on May 12, 2008-trhe PSC issued final order, No. 82006.
