

**CASE No. 9038 – Carpenter Hill v Glen Davis**

Re-opened matter on behalf of Glenn Davis, who had previously been successful in having his water bill reduced for the time that his home was being demolished and rebuilt and no water service could be used for his premises. Issue remained for him the actual crediting to his account which the PSC ordered in January 2007 and refund of his overcharges by the company. On May 10, 2007 OPC filed a motion to enforce the ruling made by the PSC.
